## Something To Think About!

Did you ever stop to think why so many of our neighbors & friends trade at Saur & Balsley's Drug Store? Did you ever wonder why, after trading there once, they become regular customers. Perhaps you trade at Saur & Balsley's. If so, you know

### It Is a Fact!

That no pains are spared to furnish the best goods at lowest prices. That when goods are not found to be as represented by them, they are anxious to have the goods returned and to refund the money. Their steady increase in trade is a direct result of trying to please the people.

### At Present

People are getting the benefit of prices on Wall Paper never before heard of, in Napoleon. If you have a

### Courage, Democrats!

The loyal Democrats of Henry county, and all friends of the cause of bimetalism and the just rights of the people, can be assured that the outlook for a great victory in this country is very fine. There is scarcely a day but what reports come to us of accessions to the cause of free coinage, and while the common enemy are using every means conceivable to prevent desertions from the gold standard, they are losing ground every hour, and the cause of the people is gaining. The only hope of the enemy now is to deceive as many Democrats as possible and get them to vote the Gold Bug Ticket headed by Palmer and Buckner, the two bolsters from the regular Democratic party. We would urge every Democrat not to be deceived, as the object of those trying to deceive you is to eventually land you into the ranks of the common enemy! Be of good cheer, advocates of the free coinage of silver, and the victory will be yours. Don't divide your forces, but present a solid front to the enemy by placing an X under the rooster. By doing that your vote is sure to be counted for silver, otherwise it may be questioned and your vote lost!

### Silver Means Good Times.

If this country adopt bimetalism—the free coinage of both gold and silver—it will mean the immediate return of good times.

The continuance of the present system—free coinage of gold alone—means the perpetuation of a policy that must work certain destruction and inevitable ruin.

McKinley is a candidate—stultified by his own record—who advocates the continuance of the policy that has sunk the country in deep distress.

The advocate of financial liberty and a return to the country's constitutional monetary policy is William J. Bryan.

A vote for McKinley means more gold scares, more gold corners, more bond issues, more slick syndicate work.

A vote for William J. Bryan is a vote for GOOD TIMES.

### Light Breaks in The East.

The New York World's conclusion that the outlook is dark for McKinley's election is a concession wrung from unwilling lips.

The World while denouncing McKinleyism and the monopolistic combine of the Hanna syndicate, has on the money issue vigorously opposed the election of Bryan. It has been conspicuous among the Eastern Democratic papers which have looked upon the Chicago platform as a "lunacy" that would quickly disappear under the influence of a campaign of education.

But a calm view of the situation in the light of the development of the campaign and of the reports of the trusted correspondents and its own canvasses has convinced the World that so far from receding, the Democratic wave has been steadily rising.

It sees in the accomplished solidarity and union of all the forces opposed to the gold standard practically certain majorities for Bryan and Sewall in States which would be doubtful or lost to any one party of the opposition.

The World's warning merely shows that a gleam of intelligence as to the real situation in the West and South has penetrated the minds of the anti-Bryan Democrats of the East. Light is breaking on the Eastern horizon.

### \$100 Reward, \$100.

The readers of this paper will be pleased to learn that there is at least one dreaded disease that science has been able to cure in all its stages, and that is Catarrh. Hall's Catarrh Cure is the only positive cure known to the medical profession. Catarrh being a constitutional disease, requires a constitutional treatment. Hall's Catarrh Cure is taken internally, acting directly upon the blood and mucous surfaces of the system, thereby destroying the foundation of the disease, and giving the patient strength by building up the constitution and assisting nature in doing its work. The proprietors have so much faith in its curative powers, that they offer One Hundred Dollars for any case that it fails to cure. Send for list of testimonials.

### THE FARMER'S WAIL.

Well Zeke, what can the matter be  
You look so all-fired bad.  
So sorter blue and forlorn like  
Can it really be you're mad?  
I follow'd think this time of year  
With good crops free from harm.  
You'd pleasantly sit and rest  
Take it easy on the farm.

O no, friend John, those times are past  
When in winter we could stand,  
As a recompense for summer's toil  
With bank book closed in hand.  
But we're now compelled instead of that  
To work all the year round.  
For clothing our naked families  
To work the "bull" year round.

Our mortgages are just as big  
Our taxes just as high.  
As when wheat was worth a dollar  
And eighty cents for rye.  
Now you see what makes me gloomy—  
Working hard from early morn.  
Trying to pay my obligations  
With cheap wheat and ten cent corn.

If they'd give us back our dollar—  
The one used by you and me.  
We'd get back good and honest prices  
Like we had "fore Seventy-three.  
Though legislators and Popocrats  
We are called on every hand.  
We'll show them on November third  
That the few can't rule the land.

Napoleon, Ohio.  
G. ALEXANDER.

### A BUNGLING TRICK.

A Log Chain Found Tied Around  
The Rails of The Wabash  
Track.

A man giving his name as Frank Lynch, a specimen of the upper class of hobos, is now languishing in the county jail serving a sentence for obstructing the tracks of the Wabash railroad.

Last Saturday evening the fast line passenger car here at 9 o'clock was late and the freight, which usually side-tracked at Defiance to let the passenger pass, was sent on to Napoleon to side track there.

This fact probably saved the Wabash a bad wreck, else the scheme of the hobo would have worked and he would have walked off with a neat sum of money donated by unsuspecting passengers. The freight was running at a high rate of speed in order to reach Napoleon in time, and when approaching the crossing about four miles west of this city the engineer saw a man standing on the track waving his hands and swinging his coat around his head. The engineer put on the air brakes but the heavy train could not be stopped in time and it passed the crossing, running out on the bridge beyond and the engine and several cars passed over the obstruction that was found there. A log chain 8 feet long and 2 inches thick was wrapped around one rail and made an obstruction that would have derailed any train running at a good rate of speed.

The fell w who had stopped the train told the crew how he had discovered the chain and had run up the track just in time to flag them. His story appeared a trifle thin and seeing he was suspected he made his way off in the darkness. The chain was removed and the freight came on to Napoleon.

Marshal Burns was notified and Wabash Detective John B. Sollet of Toledo, was sent for. On Sunday morning he and the Marshal started out after the man who had done the flagging, and bagged him at Andrews, Ind.

He was brought to this city and lodged in jail, and on Tuesday afternoon had his hearing before Judge Cuff. He pleaded guilty to placing obstructions on the Wabash tracks with the intention of flagging the fast line passenger and obtaining a purse for his bravery, and was sentenced to 60 days in jail and given a fine of \$25.00 and costs—to stand committed until costs and fine are paid.

New goods in dry goods, clothing, boots and shoes are arriving daily at D. Wilson's.

### Women Vote for President.

For the first time in the history of this country an opportunity for women to publicly express their choice for president is offered. The method is unique and will result in showing on Nov. 4th just what effect the woman's vote will have on national affairs.

A manufacturer who has business relations with most of the prominent newspapers in the United States, proposes the plan as follows:

All women over 18 are entitled to one vote. The votes by states will be shown in the papers every week until Nov. 4th. Women are requested to read more than one side of the question and act upon their own judgment. Write the name of your candidate on a postal card and write your own name and address clearly, also city and state. On the lower hand let the name of the name of a banker or grocer who knows you.

This precaution is to prevent flooding the mail with fictitious votes. Names unknown to grocer or banker will be thrown out. Be very careful to write clearly and an acknowledgment of the receipt of each vote will be sent to the fair voter. Send the postal to Postum Cereal Food Co., Co., Battle Creek, Mich. It is urged that every earnest woman will not hesitate to expend a penny to register her preference at this most interesting period of National history.

This company have a national reputation and pledge their integrity and honor to report the vote exactly as received, without fear or favor. A sworn statement of the final vote polled up to 7 p. m. Nov. 4th will be published in the week ending Nov. 7th and the vote as it progresses will be shown every week between now and then. 015-4t

### What a Man 23 Years a Banker Thinks.

(Wayne County Democrat.)  
Hon. R. Brinkerhoff, of Mansfield, has been a banker 23 years. He is a banker now. Mr. H. H. McFadden, of the Steubenville Gazette, on the 5th of September, addressed a letter to Mr. Brinkerhoff, asking what effect a change to free silver would have upon banks, national and private, savings banks, building and loan associations, &c.

Mr. Brinkerhoff replied in a column. In this reply he says that in the 23 years that he has been a banker, "he has never seen the time when he considered a short crop of money a blessing or a curse."

He believes that the effect of free coinage of silver "upon banks of all grades, state, national and private, doing an ordinary commercial business cannot be otherwise than helpful. With productions in all lines upon a rising market, the money market will be more active, deposits will increase, loans for enlarged and new industries will be in demand, and borrowers will be more able to pay, and, of course, banks will be benefited and stockholders will receive larger dividends."

In our opinion Mr. Brinkerhoff takes exactly the right view of the effect the election of Mr. Bryan and the restoration of silver to its equality with gold as money have upon banking and the business of the country.
